Program Summary (Briefly summarize the action and follow up items from your detailed responses on subsequent pages.)						
1		_				

Overall, the results from this assessment indicate that the program has reached and/or exceeded the self-reported assessment goals in each category. In response to the 2018-2019 assessment process, student rubrics were implemented for two measurement instruments. These rubrics were developed in 2018-2019 and implemented in 2019-2020. Information gathered by using these rubrics will be used in overall follow-up and determination of any potential changes for improvement in 20-21. Follow-up was delayed and will occur in Sept 20. SLO1 outcome results frm the DNP Project Proposal Paper, DNP End of Program Survey and DNP Essential VIII Summary Paper (new rubric) will be evaluated by graduate nursing faculty for any actions for improvement. The DNP End of Program Survey results will also be reported in the SONAH program evaluation committee.

The Program outcomes as measured by the Systematic Review papers, course evaluations (NURS 712, NURS 714, Nurs 750), and DNP Essential III summary paper (new rubric) were examined in relation to SLO2 in Su20 and will be evaluated by graduate faculty for anny actions for improvement. SLO2 outcome results from the Systematic Review Paper, course evaluations, and DNP Essential III Summary Paper will be evaluated by graduate nursing faculty for any actions for improvement. The course evaluation results will also be reported in the SONAH program evaluation committee The Program outcomes as measured by the certification pass rate, DNP project proposal, and preceptor clinical evaluations were examined in Su20 were in relation to SLO3 in Su 20. The SLO review by all graduate faculty was delayed by the current pandemic and will occur on September 26, 2020.

Student Learning Outcome 1					
Student Learning Outcome	The student will critically appraise theoretical concepts and knowledge from nursing and ot	her disciplines	s and		
_	integrate this evidence in developing best practices for improved health outcomes.				
Measurement Instrument 1	DNP Project Proposal Paper (see attached)				
Criteria for Student Success	Direct: Students will score of ≥ 160 of 200 pts on the DNP Project Proposal paper completed in NURS 750 (F paper students appraise the literature on a problem in health care, develop a purpose for their DNP project, and the project plan to explore and improve health outcomes.				
Program Success Target for this	Measurement 96% Percent of Program Achieving Target	100%			
Methods	Annual review of all DNP Project Proposal Papers (n = 23) in SP20. A rubric identifying the sections of back purpose (30 pts), literature review (30 pts), theoretical framework (15 pts), and methodology (75 pts) was used and academic advisor. The average score was $173/200$ pts and 20 of 23 students scored ≥ 180 pts and 3 student 179.5 pts. Overall students scored the lowest in the literature review section with an average of 26 of 30 pts.	d for grading by	course faculty		
Measurement Instrument 2	Indirect: DNP End of Program and Feedback on Resources Survey				
Criteria for Student Success	Students will self-report "agree" on the item "the knowledge gained from this course will assist in meeting the following outcome: critically appraise theoretical concepts and knowledge from nursing and other disciplines and integrate this evidence in developing, implementing, and evaluating best practices for improved health outcomes" on the DNP End of Program Survey.				
Program Success Target for this Measurement 92% Percent of Program Achieving Target 100%					
Methods	The DNP End of Program Survey is completed in the spring prior to graduation and reviewed annually for DN attainment. In Sp20 100% of survey completers (n = 11) selected "agree" on a 3 point Likert scale of <i>disagree</i> and agree on the program outcome of "the knowledge gained from this course will assist in meeting the follow appraise theoretical concepts and knowledge from nursing and other disciplines and integrate this evidence in evaluating best practices for improved health outcomes." on the DNP End of Program Survey." The survey regraduating DNP students.	e, neither agree of wing outcome: cr developing, imp	r disagree, itically lementing, and		
Measurement Instrument 3	Direct: DNP Portfolio Essential VIII Summary Paper Score (see attached)				
Criteria for Student Success	Students will score \geq 9.0 of 12 pts on the Essential VIII-Advanced Nursing Practice Summary paper.				
Program Success Target for this					
Methods	All DNP students compile a DNP portfolio organized by the eight DNP essentials which are considered found programs by the American Association of Colleges of Nursing (AACN). The portfolio includes admission got assignments from selected courses, DNP project article, DNP oral presentation, and DNP Essential Summary student's DNP portfolio components are assessed throughout the program and must be finalized during their I. The DNP summary paper rubric was scored on a 4 point Likert scale of <i>needs remediation, competent, good,</i> VIII summary paper rubric includes the following items: "describe course activities and the relationship to DN "demonstrate advanced levels of clinical judgment, systems thinking, and accountability in designing and evalumprove patient outcomes" (4 pts); and "evaluate the links among practice, organizational, population, fiscal, Ninety-five percent (17/18 students) scored ≥ 9 pts on the Essential VIII Advanced Nursing Practice Summar found that 100% of students scored ≥ 3 pts on the items of "describe course activities and the relationship to I "demonstrate advanced levels of clinical judgment, systems thinking, and accountability in designing and evalumprove patient outcomes."	al statements, cou Papers. The grad ast year of the prand exemplary. The NP Essential VIII luating evidence- and/or policy issu y paper. A detailed DNP Essential VI	urse uating ogram. The Essential " (4 pts); -based care to ues" (4 pts). ed analysis II" and		
Based on your results, highlight	whether the program met the goal Student Learning Outcome 1.	Met	Not Met		
Actions (Describe the decision-m	aking process and actions for program improvement. The actions should include a timeline.)	•	•		

The Program outcomes as measured by DNP Project Proposal, DNP end of program survey, and DNP Essential VIII summary paper were examined in relation to SLO1 in summer 2020.

Follow-Up (Provide your timeline for follow-up has occurred, describe how the actions above have resulted in program improvement.)

Follow-up was delayed and will occur in Sept 20. SLO1 outcome results frm the DNP Project Proposal Paper, DNP End of Program Survey and DNP Essential VIII Summary Paper will be evaluated by graduate nursing faculty for any actions for improvement. The DNP End of Program Survey results will also be reported in the SONAH program evaluation committee.

Next Assessment Cycle Plan (Please describe your assessment plan timetable for this outcome)

SLO 1 through the artifacts of the DNP Project Proposal, DNP end of program survey, and DNP Essential VIII summary paper will be assessed in Sp 21. Currently, Eve Main is responsible for data collection, evaluation, and reporting.

	Student Learning Outcome 2				
Student Learning Outcome	The student will develop, integrate, and evaluate evidence-based health care innovations while considering cultural, economic, ethical, legal,				
	political, and technological issues across diverse health systems and models.				
Measurement Instrument 1	Direct: Systematic Review paper. A systematic review of the student's DNP project topic is the final paper in NURS 712 (Evidence Based				
	Practice). A systematic review is a summary of the evidence on the student's DNP topic using a rigorous process for identifying, appraising,				
	and synthesizing evidence to answer a clinical question and draw conclusions on the evidence gathered. The evidence evaluated includes the				
	considerations of cultural, economic, ethical, political, and technology(see attached)				
Criteria for Student Success	Students will score ≥ 80 of 100 pts on the Systematic Review paper				
Program Success Target for this					
Methods	All (n = 20) systematic review papers were reviewed in SP20. The systematic review rubric contains six sections: introduction (10 pts),				
	methods (15 pts), results (25 pts), discussion (20 pts), caring for my patients (20 pts) and APA format (10 pts). The systematic reviews are				
	graded by each student's academic advisor. Twelve students scored ≥ 90 pts, 7 students scored from 80 to 89 pts, and 1 students scored 64				
	pts. Analysis of the individual sections revealed the lowest section scores were found in the results section (21.2 pts out of 25 pts) and APA				
	formatting (7.4 pts out of 10 pts).				
Measurement Instrument 2	Indirect: Analysis of NURS 712, 714, and 750 Course Evaluations				
Criteria for Student Success	Students will self-report "agree" on course evaluations of NURS 712 (Evidence-Based Practice), NURS 714 (Finance), and NURS 750				
	(Program Evaluation) when asked "the knowledge gained from this course will assist in meeting the following outcome: develop, integrate,				
	and evaluate evidence-based health care innovations while considering cultural, economic, ethical, legal, political, and technological issues				
across diverse health systems and models."					
Program Success Target for this Measurement 92% Percent of Program Achieving Target 98%					
Methods	Student course evaluations are distributed by course faculty and reviewed each semester by the Program Evaluation Committee, program				
	coordinator, and faculty. The course evaluations include all DNP program outcomes and students are asked to indicate agree, neither agree				
	or disagree, disagree "knowledge gained from this course will assist in meeting the following outcome each DNP outcomes. Course				
	evaluations of NURS 714 (n =17), NURS 712 (n =10) and NURS 750 (n = 21) were analyzed for percent of "agree" on the DNP outcome				
	develop, integrate, and evaluate evidence-based health care innovations while considering cultural, economic, ethical, legal, political, and				
	technological issues across diverse health systems and models. Ninety-eight percent (47/48) of the students selected agree for the DNP				
	outcome with an overall response rate was 64%.				
Measurement Instrument 3	Direct: DNP Portfolio Essential III Summary Paper				
Criteria for Student Success	Students will score of ≥ 12.0 of 16 pts on the Essential III Summary Paper.				
Program Success Target for this	Program Success Target for this Measurement 92% Percent of Program Achieving Target 100%				

Methods	All DNP students compile a DNP portfolio organized by the eight DNP essentials which are considered foundate	tional competend	cies for DNP			
	programs by the American Association of Colleges of Nursing. The portfolio includes a DNP Essential Summar	ry Paper and the	student			
	relates their program activities to the essential. The graduating student's DNP portfolio components are assessed	d throughout the	program and			
	must be completed during their last year of the program. The DNP summary paper for DNP Essential III (Clinic	al Scholarship a	ınd			
	Analytical Methods for Evidence-based Practice) is assessed on a 4 point Likert scale of needs remediation, con	npetent, good, a	nd exemplary			
	and all (17/17 students) of students scored ≥ 12 pts of 16 pts on the Essential III summary paper with an average	e score of 13.0.	Γhe			
	subsections include use analytic methods to critically appraise existing literature and other evidence to determin	e best evidence	for practice;			
	use information technology and research methods appropriately to analyze data from practice, and disseminate f	findings from EI	3P and			
	research to improve healthcare outcomes. The subsection scores were lowest in "use information technology and research methods					
appropriately to analyze data from practice" with an average score of 3.0 of 4.0 pts.						

Based on your results, circle or highlight whether the program met the goal Student Learning Outcome 2.

Actions (Describe the decision-making process and actions planned for program improvement. The actions should include a timeline.)

The Program outcomes as measured by the Systematic Review papers, course evaluations (NURS 712, NURS 714, Nurs 750), and DNP Essential III summary paper were examined in relation to SLO2 in Su20.

Follow-Up (Provide your timeline for follow-up. If follow-up has occurred, describe how the actions above have resulted in program improvement.)

Follow-up was delayed and will occur in Sept 20. SLO2 outcome results from the Systematic Review Paper, course evaluations, and DNP Essential III Summary Paper will be evaluated by graduate nursing faculty for any actions for improvement. The course evaluation results will also be reported in the SONAH program evaluation committee.

Next Assessment Cycle Plan (Please describe your assessment plan timetable for this outcome)

SLO 2 through the artifacts of the systematic review paper, course evaluations of NURS 712, 714, & 750, and the DNP Essential III summary paper will be assessed in Sp 21. Currently, Eve Main is responsible for data collection, evaluation, and reporting.

Student Learning Outcome 3				
Student Learning Outcome	The student will apply the relevant advanced practice role to improve patient health outcomes and health care systems.			
Measurement Instrument 1	Direct: Family Nurse Practitioner certification examination pass rates			
Criteria for Student Success	Students will pa	ass on their first attempt of the Family Nurse Pract	itioner certification examination.	
Program Success Target for this	Program Success Target for this Measurement 92% Percent of Program Achieving Target 100%			
Methods				
Measurement Instrument 2	Direct: Analysis of DNP Project Proposal Paper. In this paper students appraise the literature on a problem in health care, develop a purpose for their DNP project, and integrate the evidence into the project plan to explore and improve health outcomes (see attached).			
Criteria for Student Success Students will score ≥ 160 pts of 200 total pts on the DNP Project Proposal.				
Program Success Target for this Measurement 92% Percent of Program Achieving Target				
Methods Annual review of all DNP Project Proposal Papers (n = 23) in SP20. A rubric identifying the sections of background (35 pts), problem and				
	purpose (30 pts), literature review (30 pts), theoretical framework (15 pts), and methodology (75 pts) was used for grading by course faculty			
	and academic advisor. The average score was 173/200 pts and 20 of 23 students scored ≥ 180 pts and 3 students scored between 160 and			
	179.5 pts. Overall students scored the lowest in the literature review section with an average of 26 of 30 pts. 100%			
Measurement Instrument 3	ent 3 Indirect: Final preceptor clinical evaluations of students enrolled in NURS 554-Primary Care Practicum (see attached).			
Criteria for Student Success	dent Success Students enrolled in NURS 554 (Primary Care Practicum) will score ≥ 9 pts on the preceptor clinical evaluation section of "Plan of care and			
	implementation of treatment."			
Program Success Target	for this	92%	Percent of Program Achieving Target	100%
Measurement100				

Methods

NURS 554 is the final clinical course for BSN to DNP (family nurse practitioner concentration) students. Final preceptor evaluations are completed by the clinical preceptor and reviewed each semester by clinical faculty. Each student is assessed on a 4 point Likert scale with competency not met (1); inconsistent performance, preceptors assistance more than expected (2); consistently improving in this area, preceptor assistance as expected (3); and consistently demonstrates competency (4) by the clinical preceptor. Students are expected to score at least a 3 on each clinical evaluation item. The preceptor evaluation section of plan of care and implementation of treatment includes three items: "formulates patient care management plan in collaboration with preceptor"; "implements health promotion and disease prevention education"; and "recommends referral for those patients beyond the NP scope of practice" for a maximum score of 12 pts. Preceptor evaluations for NURS 554, Primary Care Practicum are were reviewed in F19 and Sp20 and 100% (n = 15) scored ≥ 9 pts on the plan of care and implementation section. The subsection item average scores were 3.9 (formulates patient care management plan in collaboration with preceptor, 3.8 (implements health promotion and disease prevention education), and 3.7 (recommends referral for those patients beyond the NP scope of practice).

Based on your results, circle or highlight whether the program met the goal Student Learning Outcome 3.

Actions (Describe the decision-making process and actions for program improvement. The actions should include a timeline.)

The Program outcomes as measured by the certification pass rate, DNP project proposal, and preceptor clinical evaluations were examined in relation to SLO3 in summer 2020.

Follow-Up (Provide your timeline for follow-up has occurred, describe how the actions above have resulted in program improvement.)

Follow-up was delayed and will occur in Sept 20. SLO3 outcome results from the FNP first time certification pass rates, DNP project proposals, and preceptor clinical evaluations will be reviewed by graduate nursing faculty for any actions for improvement. The FNP pass rates will also be reported in the SONAH program evaluation committee.

Next Assessment Cycle Plan (Please describe your assessment plan timetable for this outcome)

SLO 3 through the artifacts of the family nurse practitioner certification pass rate, DNP project proposal papers and rubric, and final preceptor evaluations will be assessed in F20 and Sp 21. Currently, Eve Main is responsible for data collection, evaluation, and reporting.

Rubrics

Title Succinctly articulates the program proposal's purpose. Abstract (structured < 200 words) Includes the following headings: Introduction/Background, Problem Statement, Program's Purpose, Methods Introduction/Background Insuss importance, relevance, prevalence/scope of the program proposal's topic by discussing Global, National, State, and Regional/Local background on topic. Discussion begins broad (global) and narrows to your program proposal's problems that have been identified in the literature. Makes it clear to the reader why the reader should be interested in this program proposal's topic. Clearly leads into the program proposal's problems that have been identified in the literature. Makes it clear to the reader why the reader should be interested in this program proposal's topic. Clearly leads into the program proposal's problems statement.
