Q92. What are the most significant barriers or challenges your program is currently facing (e.g., enrollment, faculty resources, student support, accreditation requirements)?

Responses will not be used to evaluate or penalize program. The information collected is for the purpose of informing broader understanding, identifying trends, and guiding future policy.

* Securing the time/resources to adequately meet the exhaustive nature of the CACREP standards (i.e., residency requirement; number of learning standards) * The College's data managing system is being replace in the fall; and due to its limited alignment with Blackboard, has made collecting data very cumbersome and often manual. * Many of the standards are not necessarily aligned with current trends in the field. For example, while the MCFC standards look "nice on paper," teaching to them often occurs at the expense of what is really happening and needed in family therapy.

Q93. What successes or available resources have contributed most to your program's growth, effectiveness, or ability to support students?

Responses will not be used to evaluate or penalize program. The information collected is for the purpose of informing broader understanding, identifying trends, and guiding future policy.

* Creation of a Counseling Manager Staff Position * Approval to host a faculty search this fall

Q98. What is CACREP doing well for your program that you appreciate?

Q99. What would you like to see CACREP do differently in its current services?

* Standards are delivered and required, yet often they do not come with possible templates for "how" to deliver or address them. The common response from CACREP is that programs can do it "many ways." This is not helpful feedback.

Q100. What services or resources would you like to see CACREP add or develop that would better serve you and your program?

* If requiring something like "residency," that essentially demands both programs and students to be financially responsible, consider offering program or student scholarships to attend. While in theory, this is a practical and "good" idea, the potential financial burden on students is insensitive and unjust. * As previously mentioned, offer template ideas for addressing certain standards versus responding with vague answers like, "you can do it however way it meets the standard."

Q94. Please provide a name **and contact email address** of the person completing this survey. This address will be used if the CACREP office has any questions about the information provided in this survey.

Q95. Use this space to clarify or explain any answers provided? Or, any comments that you would like to share.

Q96. REMINDER: Student Outcomes (CACREP 2024 Standard 2.E.2) must be made publicly available on your program's website. The information to be posted includes the following four data points regarding each of your accredited specialized practice area: (a) number of graduates in the past year, (b) degree completion rate, (c) licensure or certification examination pass rate, and (d) combined employment and doctoral admissions rate of students/graduates.

Once your 2024-2025 data has been posted, send the website URL to cacrep@cacrep.org.
