

Great news- we accept your insurance!

Our Services:

✓ Orthodontic Evaluation

We offer FREE evaluations to all patients interested in treatment. At these appointments, we will determine your treatment plan that will include an estimation of how long treatment will take and frequency of appointments.

✓ Braces

Regardless of age, braces can be an excellent option to achieve straighter teeth and improve overall dental health. We offer same-day braces that allow you to start treatment immediately.

✓ Aligners

Clear aligners are a series of invisible, removable teeth aligners that straighten your teeth. Unlike traditional metal braces, they have no wires or brackets. You pop in a new set of aligners approximately every two weeks until your treatment is complete. We offer in-house Aligners that allow you to start treatment the same day.

✓ Non-Orthodontic Services

In addition to Orthodontic treatment, we also offer Botox, Filler, Lip Flips, GLO Teeth Whitening, Vitamin Injections at competitive pricing.

As an additional benefit, we are excited to offer all employees and their immediate family a \$500 discount on ALL Orthodontic Treatment.
