

MSN Program Outcomes

1. Demonstrate proficiency in the utilization of research and quality improvement, including problem identification, awareness of outcomes, evaluation and dissemination of research.
2. Analyze emerging organizational, financial, political, and technological issues confronting nursing and society as a basis for enacting change.
3. Practice from an ethical perspective that acknowledges conflicting values and rights.
4. Assume and develop practice and professional roles to meet societal needs to promote high quality, safe, patient care.
5. Integrate theory and research from nursing and related disciplines as a foundation for advanced practice.
6. Demonstrate an understanding and appreciation of person-centered care and social determinants of health.
7. Integrate theoretical knowledge of health promotion and maintenance and illness/disease prevention to achieve optimal health.
