

The Kentucky Graduate Profile & Colonnade WKU Career Climbers Pilot Project

Colonnade Committee - Information Item

9/30/2025

Colonnade Pilot Proposal

Academic Affairs and the WKU Kentucky Graduate Profile Workgroup is actively working to incorporate the CPE's mandated Kentucky Graduate Profile (KGP) (10 Essential Skills) into WKU's campus culture. We are also committed to ensuring that the integration minimally impacts established general education assessment practices and workload. Therefore, we will pilot the integration of the KGP into WKU's Colonnade requirements for AY 2025-2026 to help provide data and guide any future revisions to the Colonnade program. To pilot the integration of the KGP:

- ***Categorical & Competency Alignments*** - One essential skill (competency) is mapped to each Colonnade Category, if applicable. Mappings were determined based on the current Colonnade categorical learning outcomes (CLOS), current rubrics used for Colonnade categorical assessments, and CPE's Kentucky Graduate Profile Toolkit Competency Rubrics. The alignment is provided at the end of this document.
- ***Competency Statements*** – To streamline competency statements and reduce confusion among faculty, staff, and students, WKU's Syllabi Website and the Colonnade Website will be updated to include competency statements for each of the Colonnade categories. Statements will be ready for faculty to include on syllabi before Spring 2026 priority registration.
- ***Colonnade Assessment for AY 2025-2026*** – Foundation and Exploration courses will submit artifacts for review at the conclusion of the **Fall 2025** semester. Connections courses will submit artifacts for review at the conclusion of the **Spring 2026** semester. An assessment team will use the artifacts to determine if: (1) the KGP 10 Essential Skills are optimally aligned with the assigned category; and (2) categorical rubrics adequately address the aligned competency. Data will be compiled and shared with the Colonnade Committee and Workgroup. We expect there will be easy alignment in many cases, but that some alignments will need to be revisited after we review the data.

Kentucky Graduate Profile & Colonnade FAQs

What is the Kentucky Graduate Profile?

The Kentucky Graduate Profile (KGP) is the CPE's mandated postsecondary learning framework that defines the 10 Essential Skills all students should develop through their college experience. These skills, such as effective communication, critical thinking, quantitative reasoning, teamwork, adaptability, professionalism, civic engagement, and others, are aligned with what employers and communities say graduates need to thrive in their careers and lives. The KGP provides a common language for faculty, staff, students, and employers to connect classroom learning and co-curricular experiences with real-world readiness, ensuring that all graduates can both demonstrate and articulate the skills they have gained during their entire educational journey.

How does the KGP integrate into the Colonnade Program?

Most of the Kentucky Graduate Profile (KGP)'s 10 Essential Skills naturally integrate into the current Colonnade program with the exception of Civic Engagement. The KGP workgroup has aligned the competencies and their definitions to Colonnade categorical learning outcomes and their rubrics. Each Colonnade category connects to at least one of the skills, ensuring students encounter and practice them across a variety of categories and courses.

How will the KGP be assessed in the Colonnade Program? As part of the pilot program, previously approved artifacts for each course will be submitted and reviewed by an assessment team to determine if the assigned KGP can be effectively evaluated using the current categorical rubric. Foundations and Explorations Courses will submit artifacts for the Fall 2025 semester. Connections courses will submit artifacts for the Spring 2026 semester. The Assessment Team will submit assessment data from the pilot to the Colonnade Director, who will share the data with various workgroups.

Will faculty be required to change their artifact to incorporate the competency? No. Departments can enhance the current, approved assessment to better incorporate the KGP into the course; however, it is not required. Refer to the approved Colonnade policy for instructions on changing an artifact.

What happens if the course artifact does not demonstrate the aligned competency?

Nothing happens for AY 2025-2026. However, if the decision is made to keep the competency alignment for the category in which the course is offered, the department may be asked to consider moving the course to a different category that best fits the course, or

submit a revised assessment plan and artifact that aligns the course with the categorical learning outcomes and the aligned competency.

Will professional development be offered to help faculty integrate essential skills?

Yes. Members of the WKU KGP Workgroup will work with CITL to develop professional development sessions.

Are competency statements required on a syllabus for a Colonnade course? Yes. CPE requires that we notify students of the primary competency or skill that is addressed in the course. Faculty should use the competency statements provided on the Colonnade website that align with the category in which the course is taught.

Will the KGP be expanded beyond general education? Yes. While the KGP is first embedded in Colonnade, it is designed to expand into majors and co-curricular programs, allowing students to continue developing and applying the Essential Skills throughout their academic journey. Please contact Rheanna Plemons (Rheanna.Plemons@wku.edu) should you have questions about integration in Academic Programs.

Quantitative Reasoning (QR) Courses: CS 146; MATH 109; MATH 112; MATH 115; MATH 116; MATH 117; MATH 123; MATH 136; MATH 183; PHIL 215	3. QUANTITATIVE REASONING <hr/> Apply quantitative reasoning skills to analyze and solve numerical problems: Graduates will hone their ability to provide solutions guided by data and choose the best methodologies for arriving at informed conclusions.	1. Interpret information presented in mathematical and/or statistical forms. 2. Illustrate and communicate mathematical and/or statistical information symbolically, visually and/or numerically. 3. Determine when computations are needed and execute the appropriate computations. 4. Apply an appropriate model to the problem to be solved. 5. Make inferences, evaluate assumptions, and assess limitations in estimation modeling and/or statistical analysis.	1. Illustrates contextual data using a variety of models, including equations, graphs, and tables. 2. Applies percentages and statistics to describe contextual data. 3. Utilizes a variety of quantitative strategies to articulate assumptions and solve problems. Essential Skill 3	1. Provides accurate explanations of information presented in mathematical forms. 2. Competently converts relevant information into an appropriate and desired mathematical portrayal. 3. Calculations attempted are essentially all successful and sufficiently comprehensive to solve the problem. 4. Proposes one or more solutions/hypotheses that indicate comprehension of the problem. Solutions/hypotheses are sensitive to contextual factors. 5. Uses the quantitative analysis of data as the basis for drawing reasonable conclusions. Explicitly describes assumptions.
Human Communication (OC) Courses: COMM 145	1. COMMUNICATION <hr/> Communicate effectively: Graduates will communicate effectively by listening, weighing	1. Listen and speak competently in a variety of communication contexts, which may include public,	1. Gives focused attention to others, asks clarifying questions, and shows awareness of non-verbal signals.	1. Delivery techniques (posture, gesture, eye contact, and vocal expressiveness) make presentation interesting; speaker appears comfortable. 2. Language choices are thoughtful and generally

	<p>influencing factors, and responding accurately and professionally. They will express their thoughts coherently in writing, orally, and in formal presentations.</p>	<p>interpersonal, and/or small-group settings.</p> <ol style="list-style-type: none"> Find, analyze, evaluate, and cite pertinent primary and secondary sources, including academic databases, to prepare speeches and written texts. Identify, analyze, and evaluate statements, assumptions, and conclusions representing diverse points of view, and construct informed, sustained, and ethical arguments in response. Plan, organize, revise, practice, edit, and proofread to improve the development and clarity of ideas. 	<ol style="list-style-type: none"> Writes formally and informally using logical structure, complete sentences, standard grammar and correct punctuation. Engages in formal conversations with peers and professionals by offering information and ideas. <p>Essential Skill 1</p>	<p>support the effectiveness of the presentation. Language in the presentation is appropriate to audience.</p> <ol style="list-style-type: none"> Supporting materials (explanations, examples, illustrations, statistics, analogies, quotations from relevant authorities) make appropriate reference to information or analysis that generally supports presentation or establishes the presenter's credibility/authority on the topic. Information is taken from source(s) with enough interpretation/ evaluation to develop a coherent analysis or synthesis. Viewpoints of experts are subject to questioning. Organizational pattern (specific introduction and conclusion, sequenced material within the body, and transitions) is clearly and consistently observable within the presentation.

Kentucky Graduate Profile 10 Essential Skills ([CPE Website](#))

1. COMMUNICATION

Communicate effectively: Graduates will communicate effectively by listening, weighing influencing factors, and responding accurately and professionally. They will express their thoughts coherently in writing, orally, and in formal presentations.

2. CRITICAL AND CREATIVE THINKING

Think critically to solve problems and create new ideas and solutions: Graduates will think critically by evaluating assumptions and assessing information to make informed conclusions. They will also think creatively by combining ideas in original ways or developing new ways of addressing issues.

3. QUANTITATIVE REASONING

Apply quantitative reasoning skills to analyze and solve numerical problems: Graduates will hone their ability to provide solutions guided by data and choose the best methodologies for arriving at informed conclusions.

4. INTERPERSONAL RELATIONS

Interact effectively with others: Graduates will demonstrate both self-awareness and appreciation of people with different perspectives, as well as the ability to collaborate, communicate, and work respectfully with others.

5. ADAPTABILITY AND LEADERSHIP

Adapt to changing circumstances while leading and supporting others: Graduates will accept change and find effective ways to work and thrive in different settings. They will motivate others in the pursuit of a common goal and coach others in the pursuit of this goal.

6. PROFESSIONALISM

Perform professionally: Graduates will adhere to the code of ethics in their chosen profession and act with honesty and fairness. They will prioritize their tasks, manage their time, take initiative, and demonstrate accountability and reliability.

7. CIVIC ENGAGEMENT

Engage in civic life to improve society: Graduates will engage in political, social, and other activities to address issues that benefit society.

8. **COLLABORATION AND TEAMWORK**

Collaborate and work in teams: Graduates will collaborate with colleagues, become effective team members, and manage conflict.

9. **KNOWLEDGE APPLICATION**

Apply academic knowledge, skills, and abilities: Graduates will articulate and apply the theoretical content of their academic preparation with relevant knowledge and abilities essential to their chosen careers.

10. **INFORMATION LITERACY**

Use information for decision making: Graduates will identify, evaluate, and responsibly use information needed for decision making.
